

## EXPAND YOUR HORIZONS

For over three decades, TFO Canada has been the primary Canadian provider of information, advice and contact services for exporters in developing and emerging countries. Our trade experts help to strengthen the capacity of:

- Small and medium-sized exporters to effectively participate in the Canadian and other global markets
- Trade support institutions so that they can offer enhanced services to their national exporters
- Governments so that they can promote trade and attract foreign investment.

By building their skills in the Canadian market, many of our clients have expanded to new global markets.

## ADDITIONAL SERVICES

In addition to our web-based services, TFO Canada offers Canadian market access and trade capacity building services as a funded component of donor projects or on a fee-for-service basis. These services are typically implemented in partnership with private and public local trade support institutions.
